SUPPLEMENTARY INFORMATION: Coach, a Delaware corporation, currently controls numerous motor passenger carriers,² including Suburban and RTT,³ both of which are based in New Jersey and operate in the New Jersey/New York area. Academy Bus, a noncarrier, currently controls certain motor passenger carriers,⁴ including Academy Express and Academy Lines; both of these carriers are based in New Jersey with operations in that state and New York.⁵ In this transaction, these carriers will exchange certain routes and other assets with one another.

Specifically, under an Asset Purchase and Exchange Agreement (Agreement), Academy Express and related entities have agreed to transfer to Coach or to an affiliate of Coach to be designated by it, certain bus routes between points in New York City and Westchester County, NY, on the one hand, and Atlantic City, NJ, on the other, as well as certain assets including relevant agent lists, customer lists, sales records, accounting records, and the trade name “Funaway Tours” in which this bus service is provided.

Further, Suburban has agreed to transfer to Academy Lines certain commuter routes along the Route 9 Corridor in New Jersey to and from New York City, and to Academy Express certain routes between points in Northern New Jersey, on the one hand, and Atlantic City, on the other. In addition, RTT has agreed to transfer to Academy Express certain routes

² Coach is wholly owned by Stagecoach Group plc, a noncarrier which indirectly controls the carriers controlled by Coach.

³ Suburban and RTT hold federally issued operating authority in Docket Nos. MC-115116 and MC-162174, respectively, and New Jersey intrastate authority.

⁴ Academy Bus and its motor carrier affiliates are indirectly controlled by Tedesco Family ESB Trust. See Tedesco Family ESB Trust–Continuance in Control and Acquisition of Properties–Academy Bus, L.L.C., et al., STB Docket No. MC-F-20983 (STB served Aug. 2, 2001).

⁵ Academy Express and Academy Lines hold federally issued operating authority in Docket Nos. MC-228481 and MC-414016, respectively, and New Jersey intrastate authority.

between points in Staten Island and northern New Jersey, on the one hand, and Atlantic City, on the other. The Agreement also provides that each of these transfers will also embrace the transfer of relevant agent lists, customer lists, as well as certain records and other instruments related to the operation of the specific routes.

Finally, the Agreement provides that the carriers will not engage in the operation of scheduled bus service on each other's transferred routes during a 5-year period.

Under 49 U.S.C. 14303(b), we must approve and authorize a transaction we find consistent with the public interest, taking into consideration at least: (1) the effect of the transaction on the adequacy of transportation to the public; (2) the total fixed charges that result; and (3) the interest of affected carrier employees.

Applicants have submitted the information required by 49 CFR 1182.2, including information to demonstrate that the proposed transaction is consistent with the public interest under 49 U.S.C. 14303(b). Applicants submit that they have suffered economically following the events of September 11, 2001. They maintain that these route and related asset exchanges will allow them to improve the efficiency of their operations and reduce costs because the routes they will attain will blend efficiently into other operations that they conduct. They also claim that passengers on the various routes being exchanged will retain substantial intermodal and intramodal competitive alternatives, and therefore that the transaction will not adversely impact the adequacy of service to the public. Applicants also state that the proposed transaction will not adversely affect the employees of the carriers and will not increase fixed charges. See 49 CFR 1182.2(a)(7).

On the basis of the application, we find that the proposed transaction is consistent with the public interest and should be authorized. If any opposing comments are timely filed, this finding will be deemed vacated and, unless a final decision can be made on the record as developed, a procedural schedule will be adopted to reconsider the application. See 49 CFR 1182.6(c). If no opposing comments are filed by the expiration of the comment period, this decision will take effect automatically and will be the final Board action.

Board decisions and notices are available on our website at "WWW.STB.DOT.GOV."

This decision will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. The proposed purchase and sale of assets is approved and authorized, subject to the filing of opposing comments.
2. If timely opposing comments are filed, the findings made in this decision will be deemed vacated.
3. This decision will be effective on April 21, 2003, unless timely opposing comments are filed.
4. A copy of this notice will be served on: (1) the U.S. Department of Transportation, Federal Motor Carrier Safety Administration 400 7th Street, S.W., Room 8214, Washington, DC 20590; (2) the U.S. Department of Justice, Antitrust Division, 10th Street & Pennsylvania Avenue, N.W., Washington, DC 20530; and (3) the U.S. Department of Transportation, Office of the General Counsel, 400 7th Street, S.W., Washington, DC 20590.

Decided: February 27, 2003.

By the Board, Chairman Nober, Vice Chairman Burkes, and Commissioner Morgan.
