RE: Fall Peak

Dear Chairman Elliott;

The four railroads in the Gulf & Ohio Railways system (LC, LRS, KXHR, and YVRR) have adequate resources on hand in terms of track capacity, crew, and motive power to handle our projected fall traffic. There is an adequate safety cushion in place for unexpected clustering of car deliveries due to adverse conditions. As our traffic is more than eighty percent inbound across these four roads, we do not anticipate a car supply issue either.

Thank you for your time and attention.
